PROFILE

Computer Science student and web developer with hands-on experience building responsive websites, deploying projects with GitHub Pages, and supporting day-to-day business operations. Comfortable turning practical requirements into clean, usable web experiences and structured workflows. Currently pursuing a bachelor's degree while expanding skills across web development, deployment, and business systems.

PROFESSIONAL EXPERIENCE

Administrator Operations

Asia Gas Appliances, Karachi | Current

- Coordinate daily administrative and operational workflows to keep business activities organized and on schedule.
- Support documentation, data entry, records handling, and cross-team coordination with a focus on accuracy.
- Apply practical digital tools and structured processes to improve day-to-day office efficiency.

SELECTED PROJECTS

Toruk Makto League

[Live production website](#) | [Responsive web development](#) | [torukmaktoleague.com](#)

- Designed and built the league website with a responsive presentation for players, teams, venues, and tournaments.
- Created clear information architecture and interactive sections for league content and event information.
- Production site currently presents 150 players, 6 teams, 3 venues, and 2 tournaments.

Z-Lane Broast

[Live restaurant website](#) | [Mobile-first UI](#) | [GitHub Pages](#)

- Built a responsive restaurant website with a clear menu and customer-facing ordering flow.
- Used HTML, CSS, Bootstrap, and JavaScript to create responsive layouts and interactive elements.
- Deployed and maintained the project through GitHub Pages.

Personal Portfolio

[Portfolio engineering](#) | [UI/UX](#) | [SEO](#) | [GitHub Pages](#)

- Built and iterated a personal developer portfolio focused on case studies, project proof, responsive design, and professional presentation.
- Implemented structured metadata, sitemap/robots configuration, responsive layouts, and lightweight interactions.
